//             Your Finances
//
//
//=====
//Code Lab 1111
```

```
#include <iostream>
using namespace std;
```

```
int main()
{
    int checking{};
    int savings{};
    int deposit{};
    int check{};
    int total{};

    cout << "Please enter your checking balance: ";
    cin >> checking;

    cout << "Please enter your savings: ";
    cin >> savings;

    cout << "Please enter the amount of your deposit: ";
    cin >> deposit;

    savings += deposit;

    cout << "Please enter the amount of the check you would like to write: ";
    cin >> check;

    checking -= check;

    cout << "\nSavings Balance: " << savings << endl;
    cout << "\nChecking Balance: " << checking << endl;

    total += savings + checking;

    cout << "\nYour Total balance between both: " << total;

    cout << "\n\nWell, you're not exactly rich, but not bad." << endl;

    return 0;
}
```

```
//=====
```

```
/*
```

```
Output:
```

```
Please enter your checking balance: 5000
```

```
Please enter your savings: 5000
```

```
Please enter the amount of your deposit: 500
```

```
Please enter the amount of the check you would like to write: 200
```

```
Savings Balance: 5500
```

```
Checking Balance: 4800
```

```
Your Total balance between both: 10300
```

```
Well, you're not exactly rich, but not bad.
